Where Engineering Precision Meets *Artistic Vision*.

Welcome to AfterBuild Studio where engineering precision meets artistic vision. Founded on the principle that a space should be a true reflection of those who inhabit it, we have transitioned from a foundation in corporate excellence to becoming a premier name in bespoke interior design.

We have completed more than 100+ home interior projects successfully with the happy rewards from customers and that is how we turned into the best interior designing firm in Bangalore. We are famous in the market for our Quick delivery, Professionalism & After Service.

We believe that your home should tell the story of who you are and the collection of what you love. A room starts a conversation before people start exchanging words. Colour speaks louder than words. That is what we are here for. We would say, have nothing in your home which you think is not useful or beautiful.

“According to us, interior designing is about making people happy either functionally, aesthetically, or emotionally. Some people look for a beautiful place, but we make a place beautiful. We believe the best design projects are the ones where people break the rules. We always remain thirsty for that.”

Farmaan Azam K
Founder & Principal Designer
